

Communication

Date	6 July 2026
Team ID	Individual
Project Name	A Comprehensive Measure of Well-Being
Maximum Marks	1 Mark

Communication Plan:

Effective communication is essential for a successful project demonstration. This document outlines the communication strategy used within the project and with stakeholders throughout the project lifecycle, including how updates, issues, and feedback were managed.

S.No	Communication Type	Frequency	Channel / Tool	Participants	Purpose
1	Self Progress Review	Daily	VS Code, Personal Notes	Peruri Sai Harshitha	Track daily development tasks, coding progress, and project milestones.
2	Progress Update	Weekly	WhatsApp, Google Meet	Peruri Sai Harshitha, Mentor	Share weekly progress, discuss completed work, and receive guidance.
3	Issue / Bug Discussion	As Needed	WhatsApp, VS Code	Peruri Sai Harshitha, Mentor	Resolve coding errors, dataset preprocessing issues, and Flask application bugs.
4	Project Review	Bi-Weekly	Google Meet	Peruri Sai Harshitha, Faculty Guide	Review project status, gather feedback, and implement suggested improvements.
5	Final Demo Rehearsal	Once	Offline / Google Meet	Peruri Sai Harshitha, Faculty Guide	Practice the project presentation and ensure the application works correctly before submission.

Communication Challenges & Resolutions:

S.No	Challenge Faced	Resolution / Action Taken
1	Understanding the HDI dataset and selecting suitable features for the machine learning model.	Studied the dataset thoroughly, referred to documentation, and cleaned the data before training the model.
2	Errors during model training, Flask integration, and application execution.	Debugged the code step by step, tested each module individually, and resolved dependency and coding issues.
3	Managing project development, documentation, and testing independently.	Created a daily schedule, prioritized important tasks, maintained regular progress, and completed the project within the timeline.
