

Demonstration of Proposed Features

Date	6 July 2026
Team ID	Individual
Project Name	A Comprehensive Measure of Well-Being
Maximum Marks	1 Mark

Demonstration of Proposed Features:

This document captures all the features that were proposed during the project planning phase and tracks whether each feature was successfully implemented and demonstrated. It serves as evidence of the team's ability to deliver on the proposed solution.

S.No	Feature Name	Description	Status (Implemented / Partial / Pending)	Demonstrated (Yes / No)	Remarks
1	Dataset Collection	Collected Human Development Index (HDI) dataset containing social and economic indicators of countries.	Implemented	Yes	HDI dataset successfully integrated into the project.
2	Data Preprocessing	Cleaned and prepared the dataset by handling missing values, converting data types, and removing inconsistencies.	Implemented	Yes	Data preprocessing completed successfully.
3	Exploratory Data Analysis	Performed analysis and visualization to understand factors affecting well-being.	Implemented	Yes	Visual insights generated from HDI dataset.
4	Machine Learning Model Development	Developed a machine learning model to predict well-being levels based on HDI parameters.	Implemented	Yes	Random Forest model trained successfully.
5	Model Evaluation	Evaluated the trained model using performance metrics.	Implemented	Yes	Model performance analyzed and validated.
6	Flask Web Application	Developed a web application to accept user inputs and display well-being predictions.	Implemented	Yes	User interface created and tested successfully.

Feature Implementation Summary:

Total Features Proposed	6
Total Features Implemented	6
Total Features Demonstrated	6
Overall Implementation Rate (%)	100%
