

Project Demo Planning

Date	06 July 2026
Team ID	Individual
Project Name	A Comprehensive Measure of Well-Being
Maximum marks	1 Mark

Project Demo Planning:

A well-structured demo plan ensures that the project is presented in a clear, systematic, and engaging manner. It helps demonstrate the complete workflow of the application, from explaining the project components to showcasing the live execution and prediction process. This document outlines the demonstration sequence, key features to be presented, estimated duration for each section, and the responsibility for conducting the demonstration.

S.No	Demo Section	Description	Duration (mins)	Responsible Member
1	Introduction	Present the project title, objectives, and the problem addressed by the proposed solution.	0.40	Peruri Sai Harshitha
2	Project Overview	Explain the project structure, including the app.py file, dataset, and HTML interface.	2.40	Peruri Sai Harshitha
3	Live Application Demonstration	Run the Flask application, open the homepage, enter input values, and generate the prediction.	3.45	Peruri Sai Harshitha
4	Results Explanation	Explain the generated prediction and its significance in evaluating well-being.	0.30	Peruri Sai Harshitha
5	Conclusion	Summarize the project outcomes, benefits, and future enhancement opportunities.	0.22	Peruri Sai Harshitha

Demo Flow Summary

Step	Activity	Notes
1	Introduction & Problem Statement	Briefly introduce the project, its objectives, and the problem it addresses.
2	Solution Overview	Explain the application structure, app.py, dataset, and HTML interface.
3	Live Feature Demonstration	Run the Flask application, demonstrate the homepage, provide sample inputs, and display the prediction results.
4	Conclusion	Summarize the project outcomes and discuss future enhancements.
